

DEFINITION AND FUNCTION OF COOKIES

A cookie is a file that is downloaded to your computer, tablet or smartphone when accessing certain web pages. Cookies allow a web page, among other things, to store and retrieve information about the browsing habits of a user or his/her device.

The information collected is related to the number of pages you visit, the language, the location from which you are accessing the site, the number of new users, the frequency and recurrence of visits, the length of your visit to the site, the browser used and the equipment from which your visit is made or from which the application is executed.

TYPES OF COOKIES USED ON OUR WEBSITE

First-party cookies: These cookies are sent to your computer from a system or domain managed by us.

Analysis cookies: Whether managed by ourselves or by third parties, these cookies allow us to quantify the number of visits to our site and know how it is used by visitors. We use this information for the purpose of undertaking measurements and carry out a statistical analysis of our website's usage, in order to correct any deficiencies we may detect and improve user experience.

AUTHORIZATION, REVOCATION AND ELIMINATION OF COOKIES

If you wish, you can allow, block or delete any cookies installed on your device by configuring the browser options installed on your computer.

For example, you can find information on how to do this, should you use any of the following browsers:
